

**These are the Draft Plans of Emission Reduction Strategies for the Low Country Region submitted for the  
December 10, 2003 Early Action Compact Milestone.**

Early Action Compact Milestone - December 2003  
List of Emission Reduction Strategies Under Consideration

Colleton County

According to the latest 8-hour ozone monitoring data, Colleton County should remain attainment for the 8-hour ozone standard. However, in an effort to assist other areas in South Carolina and in the interest of public health and the environment, in December 2002, Colleton County agreed to participate in the 8-hour ozone early action process. Therefore, based on stakeholder consultation and taking into consideration resource and political constraints, the following emission reduction strategies remain under consideration. Colleton County will continue to evaluate the air quality within the county and may implement one or more of the following measures under consideration.

Measure under consideration	Detailed description of measure	Current assessment of emission reductions	Proposed date for implementation	Geographic area and/or local government
Air Quality Contact	One person will be identified as the Air Quality Contact. At a minimum, this contact will be responsible for ozone education/outreach and dissemination of ozone forecast.	Not available	March 2003	County wide
Support state-wide efforts	Colleton County will support the efforts of SC DHEC regarding state-wide emission reduction strategies.	Not available		County wide
Gas Can Exchange	Promotes using spill-proof gas cans to improve air quality.	Not available	May 2004	County wide

Beaufort County Early Action Compact  
List of Emission Reduction Strategies

Measure under Consideration	Description of measure (A more detailed description will be included in the Early Action Plan.)	Estimate of emission reductions (if available)	Proposed date for implementation	Geographic area and/or local government
Air Quality Contact	One person will be identified as the Air Quality Contact. At a minimum, this contact will be responsible for ozone education/outreach and dissemination of ozone forecast.	<i>Not available</i>	March 2003	County wide

Support state-wide efforts	Beaufort County will support the efforts of SC DHEC regarding statewide emission reduction strategies.	Not available	As determined by SCDHEC	County wide
----------------------------	--	---------------	-------------------------	-------------

Hampton County Early Action Compact  
List of Emission Reduction Strategies

Emission Reduction Strategy	Description and analysis of how strategy will be implemented	Estimate of emission reductions (if available)	Date for implementation	Resource Concerns/ Constraints	Geographic area and/or local government
Air Quality Contact	One person will be identified as the Air Quality Contact. At a minimum, this contact will be responsible for ozone education/outreach and dissemination of ozone forecast.	<i>Not available</i>	March 2003	County wide	Air Quality Contact
Support state-wide efforts	Hampton County will support the efforts of SC DHEC regarding state-wide emission reduction strategies.	Not available		County wide	Support state-wide efforts

Jasper County Early Action Compact  
List of Emission Reduction Strategies

Emission Reduction Strategy	Description and analysis of how strategy will be implemented	Estimate of emission reductions (if available)	Date for implementation	Resource Concerns/ Constraints	Geographic area and/or local government
Air Quality Contact	One person will be identified as the Air Quality Contact. At a minimum, this contact will be responsible for ozone education/outreach and dissemination of ozone forecast.	<i>Not available</i>	March 2003	County wide	Air Quality Contact
Support state-wide efforts	Jasper County will support the efforts of SC DHEC regarding state-wide emission reduction strategies.	Not available		County wide	Support state-wide efforts
